Aaron Jones, Au.D., M.S.

Before becoming a Doctor of Audiology (Au.D.) and President of EAR Audiology, Inc., Aaron earned undergraduate and graduate degrees in aerospace and mechanical engineering; he has fourteen years of experience engineering and supervising at NASA, Boeing and Illumina. While earning the Au.D., Aaron studied ototoxicity monitoring of adults with cystic fibrosis. He completed his audiology externship in the VA San Diego Healthcare System and also gained diverse clinical experience with both adults and children in small private practices, hospitals and schools. Dr. Jones holds the certificate of clinical competence in audiology and is licensed as an audiologist (AU2669) and a hearing aid provider (HA7539) in California.
